

E-mail - Current Student Writes to AdCom to support your application

(DO NOT COPY/PASTE: all our students will have access to this material)

Introduction

Dear members of the Admission Office,

Presentation

I'm a second year student and it is with great pleasure that I would like to support the application of NAME to SCHOOL X. I've known NAME for a long time and I interacted with him in many situations. We were colleagues at XXX, interns at COMPANY X, and we did XX together. I have to say that he excelled in all three environments.

Development

At school he was definitely one of the brightest students. At work, he had always outstanding reviews from his superiors, granting him a great career development. XXX. He is a very driven and curious person. He devotes effort and dedication in everything he does. And he is a great friend to hang out with. I'm confident that with his strong analytical and finance background he will contribute a lot in class and will be a great resource for his classmates. His friendly personality and character, making friends easily and connecting to different people, will add a lot to the social environment. He is very excited about XXX and XXX.

Action

He is an exciting candidate that will keep the vibrant community we have here, I highly recommend him. I would be glad to provide any further information if needed. Feel free to contact me.

Closing

Sincerely,

NAME
